

JOS supports Green IT

HONG KONG

JOS Hong Kong has launched a "JOS Computer Recycling and Donation Programme" in collaboration with the Hong Kong Council of Social Services (HKCSS) and technical support partner M8 in July 2008.

Through the Programme, JOS will collect used computers and computer accessories from education institutions and business organizations. Usable parts will be cleaned, repaired and reassembled into refurbished PCs before HKCSS distributes these PCs to the deprived families. The remaining parts will be dismantled in compliance with ISO environmental regulations for recycling and reuse to minimize the impact on environment.

Social service organizations under the HKCSS will lend their support to the Programme by helping to distribute the refurbished computers to the disadvantaged. Priority will be given to children under the age of 18 living in low-income families as well as rehabilitated and elderly people. The remaining computers will be distributed to non-profit organizations for project and administrative purposes.

Companies in HK interested to donate computers and computer accessories please call the Programme's hotline (852) 2590 9090 and press 2 > 1 > 6. ●

Representatives from JOS and HKCSS held the program briefing for social service organizations about the program details.

JOS enhances HKIEd's infrastructure for better teacher education

HONG KONG

JOS was engaged by the Hong Kong Institute of Education (HKIEd), the only University Grants Committee funded institution dedicated to the upgrading and professional development of teacher education in Hong Kong, to upgrade its existing PABX systems. JOS will help HKIEd make the transition to IPT by replacing its Nortel TDM PABX with a Nortel Networks IPT system, as well as equipping it with unified messaging facilities.

Main campus of the HK Institute of Education

Besides, JOS will also provide a comprehensive telecom system solution that includes IP phones, unified messaging for the main campus, Town Centre and cabling service for the new and improved hostel infrastructure. ●

JOS senior consultant named Microsoft's MVP 2008

HONG KONG

In July 2008 Mr Warren Lee, Senior Consultant of JOS, is entitled as one of the Microsoft's Most Valuable Professionals for his expertise in Microsoft products and his commitment to the technology community. Warren joined JOS as a technical trainee 13 years ago. Since then he has been provided with a great deal of opportunities to cultivate his professionalism. Warren, as a frontline staff, faces customers in various industries and gains invaluable skills in a range of technology scopes.

Warren is one of the less than 4,000 IT professionals receiving the title worldwide and one of only 20 some awardees in Hong Kong, he was also the champion of The Microsoft Server Championship 2007 – Exchange Track. ●
