Part II

The University's Graduate Attributes and seven Generic Intended Learning Outcomes (GILOs) represent the attributes of ideal EdUHK graduates and their expected qualities respectively. Learning outcomes work coherently at the University (GILOs), programme (Programme Intended Learning Outcomes) and course (Course Intended Learning Outcomes) levels to achieve the goal of nurturing students with important graduate attributes.

In gist, the Graduate Attributes for Undergraduate, Taught Postgraduate and Research Postgraduate students consist of the following three domains (i.e. in short "PEER & I"):

- Professional Excellence;
- Ethical Responsibility; &
- Innovation.

The descriptors under these three domains are different for the three groups of students in order to reflect the respective level of Graduate Attributes.

The seven GILOs are:

1. Problem Solving Skills
2. Critical Thinking Skills

3. Creative Thinking Skills
- 4a. Oral Communication Skills
- 4b. Written Communication Skills
5. Social Interaction Skills
6. Ethical Decision Making
7. Global Perspectives

1. Course Synopsis

This course will examine critically the role of the teacher as an educator in schools. Education is an all-round personal ‘formation’ process that goes beyond the mere provision of ‘information’, or passing on knowledge. It must aim to develop reflective and critical thinking which brings not only the ‘reformation’ of ideas or behaviour, but also the ‘transformation’ of the life and soul/spirit of a pupil as a human person. In this course, students are required to critically analyze educational policies and processes in schools today and address issues around the teacher’s role as an educator, the education of pupils as persons, and explore how education can go beyond the concern for mental and intellectual development and bring about the transformation of life among pupils as human persons.

2. Course Intended Learning Outcomes (CILOs)

Upon successful completion of this course, students should be able to:

- CILO₁ develop an informed view of the nature of education and its relationship to holistic human well-being;
- CILO₂ develop an informed view of the essential role of teachers in education;
- CILO₃ explicate the personal and professional qualities required of teachers;
- CILO₄ explicate the complexities and challenges of teaching in the contemporary world.
